

The Conspirators, against Ethio-Muslims, behind the Curtain Exposed

By Bilal Ibnu Luqman

Introduction

Since recently a group named itself as 'Nesiha Group (NG)' and their associates who probably self-appointed as 'Firqat Najia' are working day-in-day-out and has totally dedicated all its resources in amplifying the weak points of the Ethiopian Muslims and Ummah in general in order sow difference among fellow Muslim. The weak points in essence the points of controversy/difference. The group operates via its online google group under the name of 'Nesiha@googlegroups.com' and their web page is <http://www.nesiha.com/info/net/org>. I mentioned the web page and the group's address as any one who subscribe to their google group or visit their homepage can easily read in to their mind as to what and why they're working day-in day-out. Thus, the following analysis is a Cosmo-edited version of the two-combined critics made to the group in response to the series of controversial posts posted mainly via their google group. As per the importance of the issue they'll be surfacing in the future, series of analyses and critics will continue, Insha-Allah, in order to play at least a fraction of the role to preserve mainly the unity of EthioMuslims, who are prime target of the group and of course the Ummah in general.

N.B. The word 'they' refers to 'Nesiha Group (NG)' and their associates. Also note that when the writer mentioned NG it doesn't mean the whole members subscribed to NG as the writer is also one of the people subscribed to the group but the operators behind the curtain...the main players with 'purpose'. Also the phrase 'their associates' refers to personalty/ies or organization(s) who share the narrow ideology propagated by 'NG' and actively/passively work hand-in-hand to promote their goal of dividing Ummah.

Critical Analysis

Well, I've been through with their shallow arguments and arrogant dawa'a approach very much deviant of The Respected Best Generation of Ummah, The Salafuna Salihun, which they claim to follow...but practically not! Had Islam been like the version they and their jema'a and 'scholar' used to advocate, it wouldn't have reached the present status. It's quite easy for them to make 'Hukim'...they may say to me that I'm deviant and that they and their jema'a are 'Firgat Najia'...Any ways...

It is a matter of accountability to go to some of the details of the being of the 'Nesiha Group (NG) and their Associates " in general:

1. Of some of the mind-touching, if I could exactly remember they were making us and their group busy with their lecture and the so called 'fatwas' regarding the 'Suicide Bombing', which has nothing to do with the Peaceful Ethiopian Muslims and peaceful country like Ethiopia, at exact time when Ethiopian Muslims were mourning the Pre-Cooked 'result' of population census presented to the Parliament by the 'Central Statistical Authority' which almost cut the figure of Muslim Population by half...had real Nesiha been their aim they would have discussed that important issue of ours...they would've focused on our real problem of the time to raise the awareness of our society or at least the circle they formed.
2. Also one of their unforgettable messages was regarding 'Qutbisim...Qutbist'...in which they tried to lecture us from their endless, one-sided, narrow, 'fatwa sources'...It's obvious they may have their own 'stand' that is their choice but it's ridiculous that they go back to criticize respected scholar of the Century...Sheheed Seyid Qutib (Rahimehu'Allah). Rather than focusing on the things that unite the Muslim Ummah.
3. It's also ironic to remember that when recently enthusiastic University Muslim Jema'a in different parts of Ethiopia demonstrated against the planned anti-Islamic law by the Ministry of Education and others. Then immediately after the demonstrations had taken place, ...the demonstration which was welcomed by the ruthless Federal Polices, which crushed the peaceful demonstration callously, harassed the student regardless of their gender...imprisoned several, it was at

that exact period...at the time when the largely Law-Abiding Ethio-Muslims heart was broken because of what happened to their children that the so called 'Nesiha Group' were lecturing us from their endless 'fatwas' denouncing and saying that demonstration is 'bidea' innovation and anti-Islamic practice...citing their/of their 'scholar' shallow 'logic' when the 'scholar' tried to explain 'Result justifies the means' about alcohol...saying 'if a person was told that alcohol is a medicine for his disease/illness...can he drink alcohol...'...bla...bla. Is this simple inconsistent...unpalatable...shallow logic...enough to make the real fatwa? Look the students were demanding their (Ethio-Muslims) right...but the so called scholar is saying don't ask your right...just accept the status quo or the worst. Is any free mind that accept this...shallow logic...'fatwa'???? Really had Islam prohibit from demanding one's right it would have been a religion that brought equality among human being... What is famous about Islam is that...'Teeth for teeth'...'An eye for eye'... Islam doesn't tell to accept humility... Imagine how their 'scholar' which they mention his saying as if they're mentioning from Hadith (Tradition of our Beloved Prophet/SAW/)...giving sayings of their 'scholar' almost visible equal treatment something one can easily identify if he/she reads some of their copy-pastes. I'm also surprised that their understanding of Jihad is dividing Ummah... at misinterpretation and misunderstanding of Saying the Truth before Tyrant Leader is Jihad...with out looking in to the contexts and consequences. Hence, one can easily read in to their mind that they're not working for the betterment of Ummah in general and Ethiopian Muslim in particular.

The alleged conspiracy

- 1. The secret behind their 'confidence':** It's quite surprising that in a country where Munezema is liquidated and prominent scholars like Sh. Seid, Sh. Ahmed Towheeda of D.D and other prominent Islamic movement oriented scholars forced to exile and others jailed some of whom their whereabouts are not yet known. Awalia paralyzed....most of different jema'a are currently making their assembly secretly....for fear of arrest. However, it's paradoxical that they're enjoying their freedom...they have association called 'Najia Islamic Association' probably they may be referring to 'Firqat Najia'...anyways...they have websites <http://www.nesiha.com/info/net/org>, which are not blocked or censured unlike others. They're very confident that they mention their mob. number on some of their out going messages and invites people to visit to their center ... They're enjoying some of the freedoms I mentioned above...probably they and the like may also have some of obscured government funds, of course from anti-Islamic elements directly or indirectly...security protection and so on... It's open secret that the Ethiopian govt. is now pursuing an 'advanced' policy towards weakening Muslims by promoting division among innocent Ethiopian Muslims...where now the govt. and anti-Islamic elements are putting a lot of hope and confidence in their jema'a to successfully implement the policy of 'Divide and Rule' among Muslims. That's why the government and other anti-Islamic elements behind the curtain are pledged to support at least 3 extremes like i. 'Najia Islamic Association and their ideological affiliates'...which are the worst version of Jamata'Takfeer', 2. 'The Sufisim' their (anti-Islamic) version not the true one, 3. Al Ahabash..Jama'a of Abedella Al-Harari...the latter are borne as the result of the arrogant Takfeeri approach like the one the NG are advocating relentlessly.
- 2. Secondly, they've no political vision for Ethio-Muslims**...when they forward 'berari wereqet' like dinihin tebiq' and others during Eid-ul-Adha, 1430 H, I thought ...ok they may have changed their stand 180° and decided to work for Islam and Muslims...then when I opened it, it was about Shirk...Yes Shirk is something to deal with. The question is that...is that real problem the Ethiopian Muslims are in? No! Thanks to 1992/93 (G.C) Muslim youth movement...the Umma is becoming aware of it now...Now our big problem is how to counter protect Islam and Muslims from the advanced conspiracies that has been hatched against Ethio-Muslims...advanced because now the conspirators have

managed to infiltrate us through the jema'a and 'ideology' the 'Nesiha Group' and their associates are advocating...at the pretext of working for Islam and Muslims. Hence, zero political vision for Ethio-Muslims but the vice-versa!

3. **Their approach:** From some of their active members since inception, they're focusing on our Muslim sisters. This shows how they're well trained for their hidden mission. I can mention some of the success stories during the year 2000 (GC) by the Takfeer Jema'a in Easter part of Ethiopia, in a very short period of time they managed to win heart of 800 Muslim sisters, which out numbered the males....most of whom were married before...forced to divorce from their husband...others self-presented as wife to the members of the jema'a at the pretext of their husbands and fathers/parents, respectively were deviant (Kafeer) not allowed to own them. This is for simple biological reason that females are soft-hearted...easily influenced once they trust. The other thing is targeting females are targeting generation. However, this doesn't mean that all are susceptible, Alhamdulillah, now a day we've a plenty of them, knowledgeable challenging them at the spot with sound evidences.
4. **The Arab countries success story:** The other importance of their jema'a and the ideology they're advocating for the government and anti-Islamic elements are as follows: The Arab streets are silenced by the exact 'ideology' they and their 'scholar' is advocating...One can look at the difference between the Turkish street...even streets of Western countries and the Arab street. This is not because the Arab streets are not concerned with the issue of Ummah but 'fatwas' have been given saying people's demonstration in protest of any sabotage at the hand of the Arab dictators or against the sufferings of Muslim fellow is bide'a (innovation) that's why the majority of Arab streets were silent, at the time when free people of the world were making daily protest (eg. London from the start of the war till the end used to witness protest every night!) during the brutal Israeli war on Gaza (Dec.27, 2008 to Jan., 2009)...of which Saudi was no. 1 in silencing the voice of the people...where their 'scholars' were instrumental in helping the govt. giving their 'fatwas'. Didn't they ('Nesiha Group) know that Saudi (KSA) sacked about 4,000 Imams a couple of years ago at the pretext of saying they're extremists...only for telling the truth and a number of Respected, Truthful Saudi (Arab) Scholars are suffering, being tortured in prison. Probably, only their 'scholars' and other silent

ones are breathing healthy air. Hence, our govt. want to pursue the same trend...after some incubation and advocacy period for the group (NG), the govt. might give them the top position in both Fedral and regional Majlisa A'ila, presidency of the Sharia Court...then they'll start issuing 'fatwas' saying demonstration is bide'a...politics is bide'a...ikhwan...should be persecuted..activity of Tabligh should be banned..etc and their other countless...evil intention and hidden agenda... then to finally put the Ethio-Muslims in jeopardy.

5. **The failed attempt to divide Muslims at home and Diaspora:** A couple of days ago the group/associate/agent(s) who have no vision and interest for Muslim Unity recorded the private conversation of one of our hard working brothers, who have been struggling for Ethio-Muslims since more than three decades and posted it on the Ethiopianmuslims@googlegroups.com and proudly defended the crime committed. An act which is cursed under any kind of conventional thought let alone the Noble Way of life, Islam. The thing the people with such sick ideology, failed to understand is that the New Ethio-Muslim Generations are far more knowledgeable, vigilant and out of touch. Of course, lessons learned from the crime committed by the group and/or their agent(s) and for sure we know how to fix it, Insha-Rabbuna. The speech deliberated by our respected brother, who was and unfortunately is prime target of the conspirators, on 4th of January, 2010, for any rational mind, was a highly Professional and rather a wise Policy Speech with a vision, which have ability to unite not only Ethio-Muslims but all Ethiopians regardless of their religion and ethnicity. Insha-Allah, this is something within sight regardless of the conspiracy.
6. **Associating the respected scholars and their Qura'an-and-Sunna based methodology with *Takfirist*:** Days ago the NG in order to white wash their image...as they almost represent the worst version of Jemaat Takfir and 'distance' them selves from Jema'at Takfir, they want to once again associate the respected scholars like Sheheed Sayid Qutib and Dr. Yusuf al-Qardawi with Takfir jema'a. This is a paradox as the ideology...rather methodology these respected scholars advocated and advocating is *Mutewesita* or *moderation/not going to the two extremes*...they also advocate that the Muslim can live with peaceful coexistence with non-Muslims including the Jews. As the per their series copy-pastes web-links they (NG & their 'scholars' go beyond insulting these Scholars but they'll take them down to the

level of Kuffar. Ok from the very name and meaning of 'Takfiris' the name was drawn from the nature of their ideology which calls for considering/naming any one (including main stream 'Salafis') who oppose their ideology *Kaffir*. Well the prominent scholar I mentioned above were and are calling for peaceful co-existence even with non Muslims including the Jews let alone the Muslims. Also paradox enough Dr. Yusuf Al-Qardawi the only contemporary prominent Muslim Scholars to say publicly "...'*Shias*' are Muslims but with a lot of *Bidea*...' *Bidea* (*innovation in Ibada/religion*) let alone the other 'Sunni Muslims'...am sorry I don want to use such denomination but I've to for clarification... Moreover, Dr. Yusuf Al-Qardawi currently heads two high profile international council and association i.e He is the head of the European Council for Fatwa and Research (ECFR), and the president of the International Association of Muslim Scholars (IAMS), the latter includes prominent scholars from different Muslims sects including *Shia*. He is heading these organizations not only because of his high caliber theological knowledge but also because of his wise understanding and interpretation of *Unity* of Ummah...which all are attributed to his clear Qura'an and Sunnah based understanding and practicing of Islam. Let me quote what I found from www.Islamonline.net...'Many scholars consider him to be a *mujtahid* of the Modern Age. He has been active in the field of *da`wah* and the Islamic Movement for more than half a century.'... Ok how is it possible for a rational mind to think that the respected scholars are advocates of 'Takfiris' as NG modulator posted on *Sun, Jan 3, 2010 at 9:54 AM* and try to claim. But what's crystal clear for any rational mind is that the *vice-versa* is true as NG and their 'scholars' are even 'fine tuning' amongst the *Sunnis*...again am sorry to use the term...self-declaring that they're 'Firqata-Najia' and putting the rest under question. That's why, this 'Nesiha Groups' and their associates in Arab countries and other part of the world most importantly the Orientalists in the West are working day in day out in order to divide the Ummah. Allah (AWJ) Knows the best but it's obvious as per the composition of the website (<http://www.takfiris.com>) and above all the evil-intent of dedicating the page to the respected scholar and their Dawa'a methodology is something which is developed by Orientalists and/or Jewish to black-paint the respected scholars and their methodology but NG which blindly follow the old principle of 'the Enemy of my Enemy is friend' are forwarding the web address for only reason that the web-portal/owner targeted the group they disagree with. This is quite

ridiculous, a couple of months ago the modulator of the NG had posted message warning against forwarding some websites developed in the name of Muslims by anti-Islamic elements/Jewish...we all appreciated for the important message he forwarded and acted accordingly but it's ironic that the NG modulator did U-turn and forwarded the 'www.takfiris.com' which presumably developed by anti-Islamic element so long as the site targeted the people or dawa methodology they disagree with. They don care as far as it serves the 'purpose'. What an opportunistic behavior?!

Conclusion

To put it in a Nut-shell knowingly or unknowingly they became an effective functioning-hand, under cover operative of Enemy of Islam which now has focused on one of the world Tolerant, non-violent, stable and now a day progressive Ethiopian Muslims, to divide and let us fight each other as the case in Pakistan, Iraq, Afghanistan, Somalia and others, divided based on narrow 'fatwas' like the ones they were feeding us and trying hard.

The fortunate thing is that we Ethiopian Muslims are so advanced and vigilant that we can easily identify perpetrators and undercover operatives like NG and their jema'a beginning from their inception. Thus, it's my brotherly advice that they revisit what they did and do cost benefit analysis of what they're involved-in, if they're after the real meaning of NESIHA, if otherwise they've hidden mission, working as an undercover operative...which will let them insist on doing for what they're paid to, then they're too late as Ethiopian Muslims specially the Enlightened Young Generation are out of touch and knowledgeable.

Most importantly, what should be kept in mind is that, the NG and their associates/agent(s), are not a matter of big concern and deserve to be given due attention but this is for simple reason that we Ethio-Muslims have passed through a lot of ups-and-downs; our enemies applied the rule of 'divide and rule' using the weak with shallow knowledge and perpetrators amongst us as a tool and more importantly undercover operatives to sow differences among us and as a result subjugated Ethio-Muslims for centuries, something which is still continuing in a different form. Hence, our bitter past experience taught us to be extra-vigilant and to treat every

incident on spot as it happens, regardless of its weight as it may have cumulative effect. Thus, we can no longer look down even on such a google-based small cluster as far as their intention is anti-Islamic and poisonous to Ethio-Muslims but to warn fellows against the potential danger of the poisonous thought they're striving after. Our struggle for justice will continue regardless of challenges we may face, which we consider as stepping stone toward success. I will finally conclude with famous Arabs' saying...'Al kiilabu tanbah wel Qafilatu teslee'... meaning 'the dogs are barking and the caravan continued their journey'... Yes We Ethio-Muslims nothing can stop us from reaching our well planned goal for justice, Insha-Allah!

If whatever I mentioned above are correct then are from Allah (AWJ) and His Prophet (SAW) and if not from the weak-me. I seek refugee in Allah (AWJ) for any kind of deviation from His path.
